

DURO LAST®

2026 NATIONAL SALES SEMINAR

NASHVILLE

TOP OF THE NEWS SEMINAR EDITION

Message from Darren Schulz

Dear Duro-Last® Family,

Each year, the National Sales Seminar gives us the opportunity to step back from the day-to-day and focus on what truly sets Duro-Last apart. Our time in Nashville, Tennessee, was a powerful reminder of what makes this network so special and why I remain so confident in the future we are building together.

When I took the stage this year, I focused on three simple truths about Duro-Last: the strength of our partnership, clarity about who we are at our core and our commitment to investing and innovating so we can win together.

First, our partnership.

From the beginning, John R Burt built Duro-Last around the belief that contractors deserve more than a transactional relationship with a manufacturer. That philosophy still defines us today. We do not see you as a sales channel. We see you as partners.

We sell together. We problem-solve together. We show up for building owners together. Whether through joint sales efforts, technical expertise or

responsive support, everything we do is designed to help you succeed in every market condition. In a world of constant change, that commitment remains steady.

Second, who we are at our core.

We are, and always will be, a PVC company specializing in Edge-to-Edge and Deck-to-Sky™ solutions.

Our custom-fabricated PVC membranes are where our story began, but our differentiation goes far beyond a single product. We deliver complete roofing systems, backed by industry-leading warranties and supported by people who understand the details that matter on your jobsites.

Being custom to the core is not just about fabrication. It is about custom solutions, custom support and custom relationships. Staying true to that focus is a competitive advantage for all of us.

Third, how we are investing and innovating to win together.

Over the past year, we expanded our footprint, strengthened our manufacturing operations and continued building the talent

and systems that support your business. We are committed to both meaningful product advancements and practical improvements that make your day-to-day experience easier and more efficient.

Every investment has the same purpose: to help you win more often and to ensure we deliver the right products, in the right quantity, in the right place, at the right time.

Seminar is always a celebration of accomplishments, but it is also a recommitment to the road ahead. To each of you who invested your time and resources to be with us, thank you. Your trust, your candor and your partnership make us better.

Duro-Last's future is not something we build alone. It is something we build side by side with you.

Sincerely,

**Darren Schulz,
President**

Built to Win. Built to Lead. Built Together.

Dear Duro-Last Family,

There's a difference between competing in the market and defining it.

This year's National Sales Seminar wasn't just a gathering. It was a statement about who we are — and where we're headed together.

In a marketplace crowded with look-alike solutions, differentiation matters more than ever. That's why we introduced innovations designed to sharpen your competitive edge: the Duro-Fast™ AnchorBoard™ System, redefining thermal installation efficiency; our VADA® vented roof system partnership, delivering a patented, perimeter-enhanced, wind-vented solution backed by Duro-Last's industry-leading warranty; SWIF Rack™ Commercial Solar Racking, expanding solar opportunities; and our PVC/TPO Tie-In Strip capability, ensuring you're equipped for every job with confidence.

These aren't incremental updates. They're advantages.

But leadership isn't built on products alone. It's built on mindset. Olympic gold medalist

Jim Craig reminded us that winning teams are formed long before the scoreboard reflects it — in the locker room, in the culture, in the shared belief that together we can accomplish what others think is impossible.

And that belief is translating into results.

During Monday evening's Awards Gala, more than 250 contractors celebrated 2025 sales milestones. For the first time in company history, two contractors, Parsons Commercial Roofing and Royalty Roofing, reached Diamond Eagle status, each surpassing \$15 million in qualified sales — a new benchmark for what's possible within this network.

We closed our time in Nashville, Tennessee, with Lee Brice at The Pinnacle — celebrating not just accomplishments, but the relationships and trust that make this partnership different.

If you were with us, you felt the momentum. If you weren't, it's building.

We are strengthening differentiation. Equipping you to pursue more opportunities. Raising standards. And the pace

isn't slowing.

To those who joined us — thank you. Your commitment to the Duro-Last product and brand is what fuels our growth and strengthens this partnership year after year. To those who couldn't attend, we missed you — and trust us, this was one you'll want to experience firsthand next time.

Join us Jan. 25 through 27 in Orlando, Florida. The conversations, the innovations and the opportunities ahead will shape the next chapter of this industry — and the contractors in the room will help define it.

The future of Duro-Last isn't just something we talk about. It's something we build — together.

With gratitude,

**Andrea Fisher,
Sr. Director
of Marketing**

SALES & QUALITY ASSURANCE AWARDS BANQUET

SALES AWARDS

Brad Podojil, Larry Podojil, Leslie Podojil and Tyson Searfoss Honored as Duro-Last Sales Representatives of the Year!

Duro-Last proudly recognized several outstanding sales and technical representatives for their dedication, achievements and years of service during the Sales Representative & Quality Assurance Awards Banquet on Saturday evening. The annual banquet celebrates individuals whose expertise, commitment to quality and strong partnerships help drive the continued success of the Duro-Last brand across the industry.

Congratulations to Brad Podojil, Larry Podojil, Leslie Podojil and Tyson Searfoss on being named the 2025 Duro-Last Sales Representatives of the Year!

MONDAY GENERAL SESSION

Duro-Last President Darren Schulz kicked off a morning full of exciting updates and celebrations during Monday's General Session, followed by a special presentation from former National Roofing Contractors Association (NRCA) President Reed Ribble. Both new and familiar faces took turns sharing the stage to dive into a variety of topics, including going to market and winning market share in 2026, sales insights, a fireside chat with Duro-Last leaders and exciting news from the remarkable team driving industry-changing innovations coming to Duro-Last contractors in 2026, including:

- SWIF Rack Commercial Solar Racking — Now available to order! This elevated solar racking system is designed specifically to integrate with the Duro-Last Roofing System, allowing for easy maintenance and long-term performance.
- VADA Vented Roof System — Now available to order! This new partnership with VADA brings the perimeter-enhancing wind-vented system to Duro-Last, backed by the industry-leading warranties that set us apart.
 - Duro-Last PVC/TPO Tie-In — consisting of vinyl-clad metal with a laminated TPO film on one side and PVC film laminated to the other with corresponding membrane skirts welded to each side for ease of installation.
 - Duro-Fast AnchorBoard System — a true innovation, this patented technology consists of the Duro-Fast SmartFuse™ board and Duro-Fast Volt™. The SmartFuse board is lined with a thermally activated adhesive layer, allowing Duro-Fleece® or Duro-TECH™ TPO Fleece to bond to the entire surface of the board using the self-propelled Duro-Fast Volt power unit.

COMING SOON!

Four contractors were also recognized during General Session for their outstanding work over the previous year with Project Awards. **Four Seasons Energy Efficient Roofing** received the 2025 Sustainability Award for Merrick Inc. in Vadnais Heights, Minnesota. **Springfield Roofing** received the 2025 Specialty Membrane Award for the Community Center in Suttons Bay, Michigan. **Lighty Roofing and Construction** received the 2025 Custom-Fabrication Award for the Greentech Center in Anadarko, Oklahoma. Finally, **Quality Exteriors** received the 2025 Edge-to-Edge & Deck-to-Sky Award for Modera SoBro in Nashville, Tennessee.

TUESDAY GENERAL SESSION

Tuesday's General Session offered a behind-the-scenes look at our commitment to quality with Director of Research and Development Mary Koutras. Mary shared her passion for polymers and how her team of quality experts is not only raising the bar for quality standards at Duro-Last, but for the single-ply commercial roofing industry as a whole.

Following Mary's presentation, decorated Olympian Jim Craig took center stage to share about his journey as the powerhouse goaltender who, against all odds, led the 1980 U.S. hockey team to an improbable run to the gold medal, including an upset against the juggernaut Soviet Union in what is now known as the "Miracle on Ice." Jim's insightful keynote presentation transformed his playbook for success on the ice into actionable strategies for Duro-Last contractors to take home.

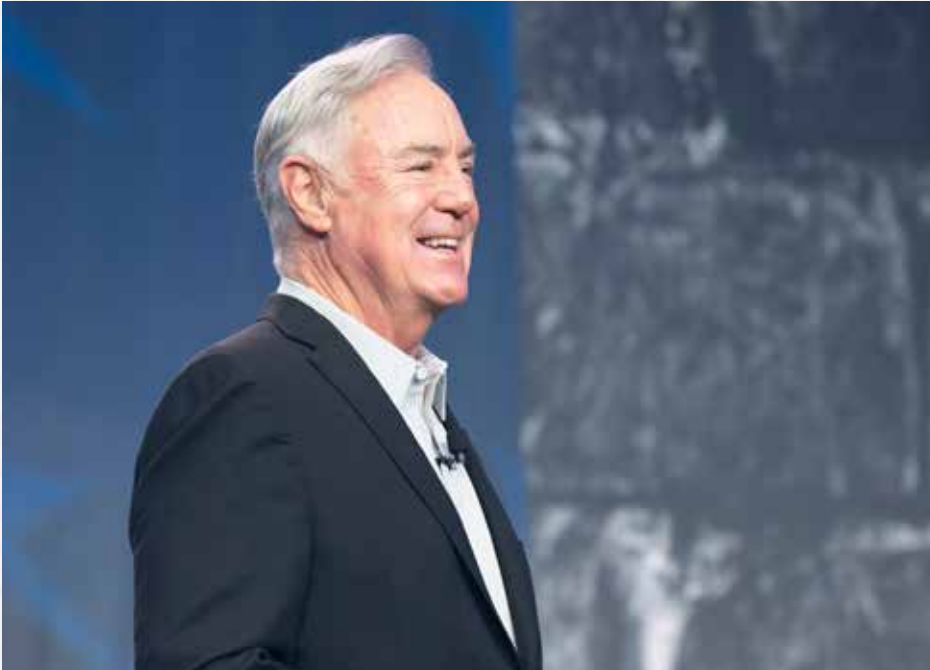

The session also celebrated outstanding achievements within the Duro-Last family. **DCA Commercial Roofing** claimed a three-peat victory as the Roofing Challenge champion! Additionally, **Billmans Cool Roofing Co.** was recognized with the 2025 Metal Roofing Project Award for the USCG Bauer Building 544 in Petaluma, California, while **Damschroder Roofing** earned the prestigious 2025 Project of the Year Award for its exceptional installation at Minerva Middle School in Minerva, Ohio.
